

“Back to the Future (School) Day!” – Feedback

Wednesday 4 December 2019

What has surprised/interested you most about today?

- How much I enjoyed it. Really enjoyed drama. This is a subject I would have loved, not enjoyed when I was at school.
- It's all been interesting. I have got a real feel for what daily life is like for the school. All the Teachers were very engaging. Canteen food was excellent. There is a very inclusive feeling in the school.
- Found the classes were interesting and informative and knowing what we were seeing and learning what our young people are doing.
- The quality of the canteen offerings. The range of subjects offered.
- Today has been interesting in every subject and has run so smoothly. The Teachers etc. done fantastic. Well done!
- I really enjoyed today. I was surprised at how full on school life is these days. I enjoyed all the classes and the lunch was lovely. I was surprised at how easy Mr Burns made a Spanish lesson.
- How it all came back even after 40 years! Lunch was excellent.
- The drama teacher is excellent, such fun with 100% enthusiasm, and all teachers really thought about their classes and taught us what they teach which was surprising.

How can we build on today to strengthen relationships with parents and school?

- I think you do well, and I find we can always find out what is going on. The Parent Council is always a good interface between the school and parents. But days like this are invaluable for those relationships.
- I think we (parent's) have plenty of opportunities to ask questions and air concerns and I feel from all that I have met today I would not have a problem calling/coming in if a problem was to arise.
- I think today will enhance the parents desire to stay engaged with their child's education. More so than if I did not attend.
- I think you do a great job already with communication etc.
- I learned a lot today about the wider school life and all questions were answered.
- Just keep on doing things like this and supplying regular updates as to what more we can do at home to augment what's happening at school.
- I think just carrying on with this day, and my daughter would like me to come back to school every day (LOL), also all the Parents Evenings are also fantastic.

How has today helped to support your child in their learning at home?

- This has helped me understand what my child is doing in school and how I can be of help to her if struggling at all.
- It's given me a better understanding of his day and how the school works and what lies ahead.
- It's a hectic day, will give my little one a little more 'leeway' with chores after school.
- It has been great to have a view of what my child experiences on a day to day basis.
- I feel that I have gained a better understanding of how my child is taught. Things have changed a lot from when I was at school so it's great that I understand more in the subjects that I've been to today.
- Yes today has been good for helping me to understand Charlie's needs.
- It's given an insight as to how hard they have to work and how busy their day is.
- Understanding how much the teachers have to put into the lesson, very exhausting.

What questions/queries do you still have that we could help with?

- No questions. Good day. Very interesting.
- I'll probably have questions later but now feel a lot more confident in how to ask them. I think you're doing a great job.
- Nothing at this stage.
- Nothing apart from more understanding of the N4, N5 etc. set up which I know can be viewed on line.
- Staff today answered all the questions I had and did so in a very professional but fun way.
- No other questions, all were answered today by all staff. Thank you.
